EDUCATION

University of Illinois at Urbana-Champaign
Champaign, IL

📅 August 2017 – Present   GPA - 3.74/4 (Upto 4th Sem)

Chengdu Foreign Language School
Chengdu, China

📅 August 2014 – May 2017

SIDE PROJECTS

Gaming Forum
📅 2018
- Created a website with my friends for his school's LOL team, including a online chat room, a competition scheduling system.

- -

Personal Website
📅 2017-2019
- Create a personal website to display my information and writing blogs. I generally re-designed the website every year. The website was currently under construction, more information can be find on my github.

- -

FLY ON TIME
📅 2018
- A class Project using historical data to make prediction about the delay for a certain flight. People will also be able to find a shortest transfer flight in distance or time giving a destination and a origin.

- -

Shopping cart
📅 2018
- While I'm interested in how those website's shopping carts work, I decide to try it out by myself. I created a shopping cart system that allowed user to stored their choice, and view their current choice and history choice at different places.

- -

WORKING EXPERIENCE

Intern - InCiteData
📅 2019 May-June
- I spend most of the time here helping transfering code from their old platform (using java and react) to the new platform (using Angular and node.js). I also helped to write a few background interfaces.

- -

SKILLS

C   C++   Python   PHP   MySql
HTML   CSS   Java   JavaScipt

FIELD OF INTEREST

- Web Development
- Android Development
- Proof based mathematics

COURSEWORK

- Data Structure
- System Programming
- Probability and Statistics
- Database System
- Computer Architecture
- Numerical Methods
- Real analysis

VOLUNTEER EXPERIENCES

Course Assistant
CS125 CA

📅 January 2019 – Present

volunteer
CS SAIL

📅 April 2019
